第一步，Edit->Plugins 中找到并打开插件

Step 1, find and open the plugin in Edit ->Plugin

第二步，打包你的项目

Step 2, package your project

第三步，打开 Output Log 页面

Step 3, open the Output Log page

查看是否包含：Asset has been saved with empty engine version.的 Log

Check if it includes : Asset has been saved with empty engine version.

第四步，打开插件页面，Window->EmptyVersionSave

Step 4, open the plugin page, Window->EmptyVersionSave

页面中已经有 Log 对应的文件列表

There is already a list of files corresponding to Log on the page

第五步，点击 Re Save 按钮

Step 5, click the Re Save button

所有异常的资产文件会被重新保存一次

All abnormal asset files will be saved again

如果想要再次检查资产，请先点击 Clear Log 按钮，清空记录

If you want to check the asset again, please click the Clear Log button first to clear

the record
